(Autonomous, NAAC "A")

Avinashi Road, Arasur, Coimbatore.

Tamil Nadu, India.

ABOUT KPRIET

KPR Institute of Engineering and Technology (KPRIET) was established in the year 2009. The institution is promoted by KPR Group, a renowned business house in India with an interest in textiles, wind sugar, and sugar. The main focus is to offer quality education to the younger generation to strengthen our nation in the field of Engineering and Technology. The Institution is approved by AICTE and affiliated with Anna University, Chennai, conferred with Autonomous status and Accredited by NAAC with 'A' Grade. It is one of the youngest institutions to acquire the most eligible accreditation from the NBA (CIVIL, CSE, ECE, EEE, and MECH).

ABOUT MECHANICAL ENGINEERING

Department of Mechanical Engineering established in the year 2009 offers an UG Programme - B.E. Mechanical Engineering (Accredited by NBA) and a PG programme - M.E. CAD/ CAM. The department is recognized as research Centre for PhD Programme by Anna University. The department offers opportunities for education and research in a wide spectrum of areas in Mechanical Engineering such as Engineering Design, Materials and Manufacturing, Industrial Engineering, Thermal Engineering, Robotics & Automation and Automobile Engineering. The department also contributes substantially towards organizing extension programmes such as conference, workshops, seminars, and symposia on the latest topics. The department has strongly motivated faculty with diverse specialization providing a potential for pursuing research in basic design as well as in interdisciplinary areas of science, engineering, and technology.

VISION OF THE DEPARTMENT

To be a source of providing globally competent mechanical engineers and responsible citizens capable of meeting the changing needs and challenges of the society through its commitment in offering value-based education.

MISSION OF THE DEPARTMENT

The Department of Mechanical Engineering is committed,

- To impart quality education through best teaching practices that will prepare responsible graduates capable of getting a successful career in mechanical engineering and/or related fields.
- To produce mechanical engineering professionals with sufficient intellectuality, good behavioral attitude, ethical values and leadership qualities.
- To disseminate technical and/or research knowledge through special lectures, workshops, conferences, publications and specific skill educational programme.

CALL FOR PAPERS:

TAMMIE - 2023 invites review and research articles from academicians, researchers, and industry personnel. The status of the paper will be communicated to corresponding author after peer review. Selected papers will be invited for presentation at the discretion of the selection panel.

MAJOR AREAS (Not limited to):

Smart and Biomaterials	Materials and Manufacturing Engineering	Composite Materials	Micro Machining
Additive Manufacturing & Reverse Engineering	MEMS/NEMS	Thermal Engineering	Modeling and Simulation
Refrigeration & Air Conditioning	Renewable Energy & Energy Resources	Aerodynamic Technologies	Engineering Optimization
Alternate Fuels for IC Engine	Industrial Robotics and Automation	Surface Engineering	Tribology
Lean and Supply Chain Management	Reliability and Maintenance Management	Intelligent Systems	System Dynamics and Vibration

Theme of the Conference INDUSTRIAL AUTOMATION

PAPER PRESENTATION:

Mode of Presentation will be hybrid (Online and Offline).

ABOUT TAMMIE - 2023

Technological advancements in materials and manufacturing for industrial environment (TAMMIE 2023) is an international conference organized by Department of Mechanical Engineering at KPRIET on May 5th and 6th 2023. It aims to provide a platform for academicians, researchers, and industrial personnel to share the technological advancements in the field of engineering. It serves as a forum to present and discuss the latest innovations, trends, and practical challenges encountered in the relevant fields of engineering. TAMMIE 2023 welcomes original articles and reviews in the field of materials, manufacturing, and industrial automation.
