About KPRIET

KPR Institute of Engineering and Technology (KPRIET), founded by Dr. K. P. Ramasamy, stands out as a leading institute of academic excellence by imparting technical, intellectual, and professional skills to students. The institute, with its diverse and energetic community of students offers a distinguishing blend of some of the premium graduate, undergraduate and research programs, talented faculty, world class amenities and a residential campus set on a sprawling 150 acres of lush green campus.

While students at KPRIET immerse themselves in academics, the institute has a lot in store for them outside the classroom. Student life includes participation in sports, co-curricular activities and cultural. In short, at KPRIET, students will find an academic and social environment where everyone- from faculty members to peer's support shape their future.

KPRIET is a home to artistically designed buildings with state of the-art computer and internet facilities, modern workshops, seminar halls, auditoriums and well stocked libraries, sports and games fields in addition to an indoor badminton court and gymnasium.

KPRIET has a faculty strength of 260 with a faculty student ratio of 1:15. Out of the total, 97 faculty members PhDs. and 102 are in the process of completing their PhDs. As an exemplary institution of learning, KPRIET follows an admission policy that strongly favours merit, even as it enables access to education for students from all strata of society through appropriate scholarships

Vision of the Institute

To become a premier institute of academic excellence by imparting technical, intellectual and professional skills to students for meeting the diverse needs of industry, society, the nation and the world at large

Mission of the Institute

- Commitment to offer value-based education and enhancement of practical skills
- Continuous assessment of teaching and learning processes through scholarly activities
- Enriching research and innovation activities in collaboration with industry and institutes of repute
- Ensuring the academic processes to uphold culture, ethics, and social responsibilities

About the Department

The Department of Civil Engineering of KPR Institute of Engineering and Technology, Coimbatore was established in the year 2009. The Department has been elevated to its next pedestal by offering PG in Structural Engineering in the year 2014. The Department has been recognized as a Research Centre for pursuing Ph. D. in Civil Engineering by Anna University. It has been accredited by NBA, New Delhi.

The Department also provides an opportunity for students in improving practical knowledge in the field of Civil Engineering and Software skills like AutoCAD, STAAD Pro, ETabs, SketchUp, Arc GIS, 3ds MAX and Revit Architecture through Building Information Modelling – Centre of Excellence, KPR Infra (start-up by students) and Learn-it (Masonry Yard), in addition to Communication and Presentation skills. The students must undergo Industrial Training and Industrial Visit to facilitate them to take up industrial live projects to understand the field constraints. KPR Civil Academy has been established to facilitate the students to take up the training for competitive exams.

The Department of Civil Engineering as well as faculty members has lifetime membership in various Professional Societies like ICI, IGS, IEI, ISTE, IPA and BAI. The Department of Civil Engineering has various Students Chapter like ACI, IGS, IEI, ICI, ISTE, IGBC to gain knowledge through various programmes conducted by these bodies across the Nation.

Vision of the Department

To be recognised in Civil Engineering through quality education, research and innovation for the sustainable developments of the society

Mission of the Department

- Provide holistic education to students on emerging technologies in Civil Engineering
- Instil in individuals a sense of ethical values and lifelong learning
- Promote research and consultancy activities

Programme Organised

Expert talk on “Mastering Mega Projects- A Techno- Economic Case study on the Project Management of the Hoover Dam”

Date: 03.10.2024

The Department of Civil Engineering, KPRIET organized an expert talk on "Mastering Mega Projects – A Techno-Economic Case Study on the Project Management of the Hoover Dam." The session featured Dr. Sarvesh Swarup, Former Deputy Director General in the Ministry of Commerce & Industry, Government of India. Dr. Swarup's presentation emphasized the importance of studying mega projects, using the Hoover Dam as an exemplary case of engineering excellence and effective project management. The talk also covered the challenges encountered during the dam's construction, drawing parallels with modern mega projects, and highlighting the critical role of strategic planning, risk management, and cross-disciplinary collaboration. The session concluded with an interactive Q&A, where students and faculty had an opportunity to engage with Dr. Swarup directly. The event not only broadened the students' understanding but also inspired them to approach engineering.

Expert Lecture on “Risks and Challenges in Successful Infrastructure Projects”

Date: 07.10.2024 to 08.10.2024

The Department of Civil Engineering, KPRIET organized an insightful expert lecture for our II and III Year Honours students specializing in Infrastructure Engineering. The two-day session was led by Dr. S. Jayachandran, Senior Vice President of Marutham Group, who shared valuable insights on the risks and challenges in large infrastructure projects. The session focused on identifying, understanding, and overcoming the risks and challenges encountered in large infrastructure projects. The event provided our students with an opportunity to learn from and enhance their knowledge and prepare them for future professional challenges. This aligns with our commitment to offer hands-on, practical learning experiences alongside academic excellence.

One Credit course on “ Plan Approval and Tender Procedure”

Date: 15.10.2024 to 16.10.2024

Department of Civil Engineering organized 2 days One Credit Course for the students of II Year Civil Engineering on the topic ' Plan Approval and Tender Procedure'. Er. Thilak Ranjith started the session by giving introduction to IS codes and National Building Codes. He also deliberated

the list of documents required for the plan approval process. He also insisted about the practice prevailing in recent days in government bodies for approval by demonstrating the same through e-DCR online application. He projected the sample approval drawings for better understanding about the concepts among the students. He also discussed about the registration charges for plan approval and discussed the master plan of Coimbatore district. He gave several insights to the students about the procedure for tender application for any government or non-government projects. Sample tender documents were given to students to make them understand the procedure of tender preparation for any project.

National Level Technical Symposium “Kallikrates’24”

Date: 24.10.2024

Department of Civil Engineering, KPRIET organized the national level technical symposium Kallikrates'24 on 24th October 2024. Mr. S. Aashiq Mohammed, UPSC Trainer from Insights IAS was the chief guest of the event. Technical challenges like Paper and Poster Presentations, CAD contests, and a 3ds Max workshop and creative outlets like Photography, Connection, and Kallikrates Cricket League (KCL) were conducted for the participants. The event was intellectually stimulating for participants, offering opportunities for learning, innovation, and collaboration.

**One Day Workshop on “Open Source Geospatial Solutions
for the AEC Industry”**

Date: 07.11.2024

IEEE KPRIET Geoscience and Remote Sensing society in association with Department of Civil Engineering, KPRIET organized a one day workshop on “Open Source Geospatial Solutions for the AEC Industry”. Mr. Ezhil Thalpathi, CEO- ETA Industries, Chennai was the resource person for the event. The workshop aimed to explore the application of open-source geospatial tools in the Architecture, Engineering, and Construction (AEC) industry. Mr. Ezhil shared his expertise and insights on leveraging these tools for enhanced decision-making and project execution in the AEC sector. The students found the workshop highly inspiring and informative.

Expert Lecture on “Coastal Protection Works”

Date: 08.11.2024

The Department of Civil Engineering, KPRIET organized an online Expert Lecture on the topic Coastal Protection Works. Er. X. Micheal Nirmal, Senior Structural Engineer from Delta Engineering Consultancy, Oman, was the guest speaker for the session. During the session, Er. Micheal shared valuable insights into various strategies to mitigate or prevent erosion of beaches, dunes, and cliffs. He elaborated on the methods to safeguard infrastructure and properties while enhancing coastal resilience. The lecture also touched on how certain protection measures, such as artificial reefs and beach nourishment, can contribute to the health of coastal ecosystems by creating habitats for marine life and improving water quality. The session provided students with a comprehensive understanding of coastal protection techniques and their environmental and infrastructural benefits, making it an enriching learning experience.

Alumni Lecture on “ Career Opportunity for Civil Engineers in Defense Sector”

Date: 08.11.2024

The Department of Civil Engineering and the Office of Alumni Relations, KPRIET organized an inspiring alumni lecture on "Career Opportunity for Civil Engineers in the Defense Sector" for III year Civil Engineering Students. Er. R. Navin an esteemed alumna from the Batch of 2017-21 and Assistant Engineer at ARTELIA Consulting Engineers Ltd, Chennai, delivered an insightful session, inspiring students to explore diverse career avenues and providing valuable insights into opportunities within the defense sector. The students gained a deeper understanding of the unique challenges and skill sets required for a career in civil engineering in the defence field. The session left students highly motivated and inspired by the guidance of our accomplished alumni.

Invited Lecture on “Effect of lateral spreading and tunneling on adjacent foundations”

Date: 12.11.2024

Department of Civil Engineering in association with Indian Geotechnical Society organized an Industry expert lecture on "Effect of lateral spreading and tunneling on adjacent foundations". Er. S. Shamsul Hudha, Registered Geotechnical Engineer, HFS Geotechnical and Engineering Consultants, Erode was the resource person and delivered the lecture for our students. Students gained deeper understanding about soil mechanics, types of foundations and their appropriate suitability in various construction projects. Er. Shamsul Hudha shared practical challenges and solutions in foundation design and construction, emphasizing real-world case studies. He also emphasized the importance of continuous learning and professional certifications in geotechnical and foundation engineering. Students actively engaged themselves during the Q&A session, where queries on specific challenges in foundation design were addressed with practical examples. Er. Hudha also provided advice on career pathways in civil and geotechnical engineering.

Invited Lecture on “ Applications of Remote Sensing & GIS in Infrastructure Projects”

Date: 12.11.2024

The Department of Civil Engineering, KPRIET in association with Design Club Ignitrron organized an invited lecture on "Applications of Remote Sensing & GIS in Infrastructure Projects". Dr. S. Manikandan, Managing Director, KM Infra Envirocare, led the session, and he delved into the practical applications of Remote Sensing and Geographic Information Systems (GIS) in various infrastructure projects. He highlighted how these advanced technologies are revolutionizing the field of civil engineering by enabling efficient planning, design, and management of infrastructure. The session fostered a deeper understanding of cutting-edge GIS applications and their potential to drive innovation in engineering projects. This initiative not only enhanced the participants' technical knowledge but also sparked an interest in pursuing advanced engineering solutions using modern technology.

Alumni Lecture on “Bending the Basics: Understanding Shear and Bending Moments in Beams”

Date: 14.11.2024

Department of Civil Engineering in association with Office of Alumni Relations organized an Alumni Lecture on “Bending the Basics: Understanding shear and Bending Moments in Beams” for II Year Civil Engineering students. Er. N. Gopal, a distinguished alumnus from the 2019-21 batch and Proprietor of RG Construction and Builders, served as the resource person. He shared his expertise and practical insights, enriching the learning experience for the students. During the lecture, he discussed the complex concepts of shear forces and bending moments, illustrating their real-world applications in construction and design. The session bridged the gap between academic theory and practical implementation, providing significant benefits for the students' academic growth and career aspirations.

Expert Talk on “ Electro Coagulation Process in Water Treatment”

Date: 15.11.2024

The Department of Civil Engineering, KPRIET organized an insightful expert talk on the "Electrocoagulation Process in Water Treatment" for our III year students. Dr. P V Nidheesh, Principal Scientist at NEERI, Maharashtra was the chief guest of the session. Dr. Nidheesh shared his extensive expertise on cutting-edge water treatment technologies, focusing on the electrocoagulation process—a sustainable and efficient method for addressing modern environmental challenges. The talk emphasized practical applications, research insights, and the importance of adopting innovative, eco-friendly solutions to enhance water quality. His presentation inspired and equipped students with valuable knowledge to address pressing environmental issues through advanced engineering practices.

Expert Lecture on “Engineering to Business: How to get into the market”

Date: 28.11.2024

The Department of Civil Engineering, KPRIET organized an expert lecture titled “Engineering to Business: How to get into the market”. The session was led by Mr. Akhil Padmakumar, Managing Director, and Mr. Shahul Gasnikhan, Chief Marketing Officer of PEMS Digital Technologies Private Limited. Mr. Akhil introduced the foundational principles of entrepreneurship, focusing on innovation, risk-taking, and value creation. He emphasized the importance of identifying market gaps and leveraging technology to address them effectively.

He also shared his experience at PEMS Digital giving insights into the challenges, strategies, and successes of his entrepreneurial journey, which resonated deeply with the audience. Mr. Shahul's session highlighted strategies for turning concepts into commercial products, entering the market successfully, and the crucial role of marketing in driving sustainable business growth. The event had a dynamic Q&A session where students actively participated, gaining valuable insights and practical knowledge from the speakers.

Technical updation programme on “ Impact of Climate changes in construction sector ”

Date: 29.11.2024

The Department of Civil Engineering, in association with the Coimbatore Builders and Contractors Association (CEBACA) and Kovai Kulangal, organized a one-day Civil Engineers' Technical Updation Programme on the topic "Climate Changes and its Impact on the Construction Sector". Dr. S. R. Ramanan, former Director, Cyclone Warning Centre, Regional Metrological Centre, Chennai was the resource person for the session. Around 25 practicing engineers from 11 different industries along with the students of Department of Civil Engineering participated in the session. Dr. Ramanan highlighted the causes and consequences of climate change, emphasizing the need for sustainable practices and collaborative action. Participants got a deeper understanding of the climate change and its multi-faceted impact and expressed a renewed commitment to adopt sustainable practices.

Expert Talk on “Climate of Africa ”

Date: 09.12.2024

The Department of Civil Engineering, KPRIET, successfully organized an enlightening expert talk on the "Climate of Africa" exclusively for our international students. Dr. S. R. Ramanan, Ex-Director of the Cyclone Warning Centre, Regional Meteorological Centre, Chennai, was the distinguished resource person for the event. His expertise and in-depth insights into Africa's unique climatic patterns and their global impact captivated the students and sparked meaningful discussions. This session fostered global learning and promoted awareness on pressing environmental topics.

Faculty Publications

- **S. Kanmani, S. Rajkumar, M.C. Sashik Kumar, P. Sruthi, Nandipati Tejaswini, S. Vivek** published a paper titled “ Natural Enzymatic Sysytems for Improving Water Purification using Advanced Oxidation Processes” in Oxidation Communications
- **S. Anandaraj, R. Saravanakumar, Viswanathan, R. Krishnaraja** published a paper titled “Flexural performance of reinforced concrete beam with layer of hybrid strain- hardening cementitious composites” in Revista Materia
- **V. Rajeshkumar, S. Vinoth, Kaviya Saravanan, Bragadeeswaran Thangavel** published a paper titled “ Investigating the influence of polypropylene and steel fibers on the mechanical properties of UHPFRC” in Revista Materia
- **S. Anandaraj, Shaniya Shanavas, Karthik Shanmugan, Alex Livingston Raja, Saravanakumar Ramasamy** published a paper titled " Influence of Glass powder in strength and durability performance of Sisal Fiber Reinforced Concrete” in Revista Materia
- **D. Vivek, C. Jayaguru** published a paper titled “ Assessing the impact of Sugarcane bagasse ash and nano Silica on mechanical and durability properties of concrete” in European Journal of Environmental and Civil Engineering

- Arunvivek, R. Saravanakumar, K.S. Elango, V. Rajeskumar, published a paper titled “ Eco-efficiency of phosphogypsum waste and sisal fiber in the production of non- fired tile” in Revista Materia
- R. Sarvanakumar, Senthil Kumar Munisamy, Murali Viswanathan, Vinoth Arul Raj Joseph Xavier published a paper titled “ Kaolinite- based biochar nano composite material derived from Roystonea Regia for the removal of Copper (Cu²⁺) from effluent” in Revista Materia
