About KPRIET

KPR Institute of Engineering and Technology (KPRIET), founded by Dr. K. P. Ramasamy, stands out as a leading institute of academic excellence by imparting technical, intellectual, and professional skills to students. The institute, with its diverse and energetic community of students offers a distinguishing blend of some of the premium graduate, undergraduate and research programs, talented faculty, world class amenities and a residential campus set on a sprawling 150 acres of lush green campus.

While students at KPRIET immerse themselves in academics, the institute has a lot in store for them outside the classroom. Student life includes participation in sports, co-curricular activities and cultural. In short, at KPRIET, students will find an academic and social environment where everyone- from faculty members to peer's support shape their future.

KPRIET is a home to artistically designed buildings with state of the-art computer and internet facilities, modern workshops, seminar halls, auditoriums and well stocked libraries, sports and games fields in addition to an indoor badminton court and gymnasium.

KPRIET has a faculty strength of 227 with a faculty student ratio of 1:15. Out of the total, 97 faculty members PhDs. and 102 are in the process of completing their PhDs. As an exemplary institution of learning, KPRIET follows an admission policy that strongly favours merit, even as it enables access to education for students from all strata of society through appropriate scholarships

Vision of the Institute

To become a premier institute of academic excellence by imparting technical, intellectual and professional skills to students for meeting the diverse needs of the industry, society, the nation and the world at large.

Mission of the Institute

- Commitment to offer value-based education and enhancement of practical skills
- Continuous assessment of teaching and learning process through scholarly activities
- Enriching research and innovative activities in collaboration with industry and institute of repute
- Ensuring the academic process to uphold culture, ethics and social responsibility

About the Department

The Department of Civil Engineering of KPR Institute of Engineering and Technology, Coimbatore was established in the year 2009 with an annual intake of 60 students. In the year 2012, the annual intake was increased to 120. The Department has been elevated to its next pedestal by offering PG in Structural Engineering in the year 2014 with an annual intake of 18. The Department has been recognized as a Research Centre for pursuing Ph. D. in Civil Engineering by Anna University. It has been accredited by NBA, New Delhi.

The Department also provides an opportunity for students in improving practical knowledge in the field of Civil Engineering and Software skills like AutoCAD, STAAD Pro, ETabs, SketchUp, Arc GIS, 3ds MAX and Revit Architecture through Building Information Modelling – Centre of Excellence, KPR Infra (start-up by students) and Learn-it (Masonry Yard), in addition to Communication and Presentation skills. The students have to undergo Industrial Training and Industrial Visit to facilitate them to take up industrial live projects to understand the field constraints. KPR Civil Academy has been established to facilitate the students to take up the training for competitive exams.

The Department of Civil Engineering as well as faculty members has lifetime membership in various Professional Societies like ICI, IGS, IEI, ISTE, IPA and BAI. The Department of Civil Engineering has various Students Chapter like ACI, IGS, IEI, ICI, ISTE to gain knowledge through various programmes conducted by these bodies across the Nation.

Vision of the Department

To develop competent Civil Engineers to create infrastructure with technology in demand that leads to nation building.

Mission of the Department

- Provide holistic education to students to enhance technical knowledge and skills
- Indoctrinate augmented contents to meet the requirements of stakeholders
- Promote research and consultancy activities in collaboration with industries
- Foster ethical and moral values with leadership qualities

Programme Organized

FDP on “Outcome Based Education – Session I”

Date: 05.09.2022

Resource Person: Dr. C. Jayaguru,
Professor,
PSNA College of Engineering and Technology, .

On September 7, 2022 department of Civil Engineering organized an FDP on "Outcome Based Education – Session I" at The Legend.

The following contents were delivered by the expert during the program. He started with the creation of a link between the Course Outcomes (COs) and program outcomes (POs), for each lesson and assessment is called CO-PO Mapping. It helps to encourage and apply Outcome Based Education for attaining a futuristic approach towards education along with improved learning outcomes. There are four levels of outcome such as Course Outcome (CO), Program Outcome (PO), Program Specific Outcome (PSO) and Program Educational Objective (PEO). Course Articulation Matrix shows the educational relationship (Level of Learning achieved) between Course Outcomes and Program Outcomes for a Course. This matrix strongly indicates whether the students can achieve the course learning objectives. POs are statements about the knowledge, skills, and attitudes (attributes) the graduate of a formal engineering program should have. POs deal with the general aspect of graduation for a particular program, and the competencies and expertise a graduate will possess after completion of the program. Total 28 faculty members actively took part into the session.

The poster for the Faculty Development Programme on Outcome Based Education - Session I features the following information:

- Logos:** KPR Institute of Engineering and Technology (KPR), Department of Civil Engineering, and Great Place to Work Certified.
- Title:** Faculty Development Programme on Outcome Based Education - Session I
- Resource Person:** Dr. C. Jayaguru, Professor / Civil Engineering, PSNA College of Engineering and Technology, Dindigul.
- Event Details:** Date: 05.09.2022, Time: 10.30 A.M., Location: The Legend.
- Accreditation:** Sustainable Development Goals (SDG) logo.

National Level Symposium on Concrete Day “Concrete Marathon 22”

Date: 07.09.2022

Resource Person: Dr. A. Sudhahar,
CEO - Dimensions,
President – Indian Concrete Institute,
Coimbatore Chapter, Coimbatore.

Mr. R. Gokulakrishnan,
Alumni (2010 – 2014),
Managing Director,
VR Designs & Constructions

The technical programme "Concrete Marathon 22" was organized by the department of Civil Engineering, KPR Institute of Engineering and Technology, Coimbatore in view of Concrete day on 07.09.2022. Chief Guest Dr. A. Sudhahar, CEO, Dimensions, President, Indian Concrete Institute -Coimbatore Chapter and Guest of honour our alumni from batch (2010 - 2014) Mr. R. Gokulakrishnan, MD, VR Designs and Constructions, Coimbatore, inaugurated the programme. The presidential address was delivered by head of the department Dr. G. Anusha, KPRIET. Dr. A. Sudhahar emphasized the importance of modern inventions in concrete and the various mix design guidelines onto the attendees and explained about the activities of ICI to the students. Students cleared their doubts regarding ICI student chapter. He also explained students about the current trends and advancements in concrete materials as on today's technology. Mr. Gokulakrishnan discussed his experience working in the construction industry as well as the significance of the concrete mix for concreting. He is a Managing director of the company VR Designs and Constructions and alumni of our college. He explained students about the entrepreneurship in civil engineering field.

During the event, a variety of activities including technical paper presentations, poster presentations, code cracking, and connections were held. More than 170+ participants from various

institutions took part in the event. Internal and external participants actively took part into the events and participated. In the valedictory function, prizes were given out to the winners.

Session on “The Realm of VR in Training”

Date: 15.09.2022

Resource Person: Mr. Kumaran Raja,
Managing Director and CMO,
DSOL Global, Academy and Consulting.

On September 15, 2022 department of Civil Engineering organized a Session along with Centre of Excellence – BIM, and ASCE Student chapter on the topic “The Realm of VR in Training” at The Legend for the Faculty members. He explained about the importance and application of VR in Civil Engineering. Totally 28 faculty members actively engaged into the session.

Hands on Training on “Structural Analysis and Design using ETABS”

Date: 13.09.2022 to 24.09.2022

Resource Person: Mrs. R. Kavitha,
Assistant Professor,
