Event Summary

On Wednesday, September 20, 2023, the Department of Chemical Engineering and Career Advancement Cell of our Institute together hosted an inspiring orientation program aimed at guiding you on the path to conquering the GATE exam. Dr. S. Balasubramanian, Professor and Head of the Department of Chemical Engineering, took the stage provided a comprehensive overview of the GATE examination, tips on effective preparation, and illuminated the benefits of achieving a stellar GATE score. The discussion was rich in content, covering various facets of the GATE journey. GATE is a highly competitive exam, but it is definitely possible to conquer it with the right preparation. Yes, we had a good experience with our resource person. He delivered some tips to the students. Understand the exam pattern and syllabus. This will help you to focus your studies on the most important topics. Use high-quality study materials. There are many good books and online resources available. Create a study schedule and stick to it. It is important to be consistent with your preparation. Practice regularly. Solve previous year question papers and take mock tests. Revise regularly. This will help you to retain the information that you have learned. In addition to the above tips, it is also important to stay motivated and focused throughout your preparation journey. Remember that the GATE exam is just one step on your path to success. There are many other opportunities available to you, even if you do not achieve your desired score.
