

## HANDS ON TRAINING USING MOTORSOLVE

<b>Event No</b>	SPL LABS002
<b>Organizing Department</b>	Special Laboratories
<b>Associate Dept.   NSC</b>	Electrical and Electronics Engineering
<b>Date</b>	09/03/2024
<b>Time</b>	09:00 AM to 04:00 PM
<b>Event Type</b>	VAC / Training Program
<b>Event Level</b>	NSC
<b>Venue</b>	EIWTC

### Outcome

Modelling of BLDC motor using Motorsolve software

### Event Summary

The EKKI KPRIET International Water Technology Centre (EIWTC) organized a hands-on workshop on "Design of BLDC Motors using Motor Solve Software" on 09/03/2024. A heart-warming welcome was delivered by Prof.B.Lalitha, AP (Sr.G). Prof.C.J.Vignesh, AP (Sr.G)/EEE has delivered valuable hands-on presentation on • Basics of Motorsolve software • Model building in Motorsolve software • Statics 2D modelling of electromagnet • Brushless motor – 2D transient with motion • Import and export design model into solid work • Statics BLDC motor and induction motor design • Flux analysis and field study on motor modelThe hands-on program provided the experience on installation of Design of BLDC Motors using Motor Solve Software, menu and tools usage, 2D design, application of Magnet software. The vote of thanks was delivered by Dr.C.Pazhanimuthu, AP (Sl.G)/EEE. There were 29 students actively participated the programme and get benefited. At the end of the session the students can able to designed the brushless DC motor using Motorsolve software. The department of EEE thanks to the management for providing this opportunity to conduct the two-day workshop successfully.

KPR Institute of Engineering and Technology  
(Autonomous, NAAC "A")

**EKKI KPRIET INTERNATIONAL WATER TECHNOLOGY CENTRE**  
organizes a workshop on

**Design of BLDC Motors using Motor Solve Software**

For the students of Electrical & Electronics, Mechanical, Civil and Chemical Engineering

09.03.2024 | 09.00 am to 04.00 pm
