Outcome

Discussed various AI and ML job opportunities in Robert Bosch / Bosch Global Software Technologies. Discussed internship with Stipend programmes for aspiring AI and ML Professionals. Students are motivated to Participate in hackathons and codathons. It will boost the skills and open doors to exciting opportunities. Speaker session on Gen AI and Data Analytics with its importance and opportunities in AI/ML. Encouraged the attendees to embark on a rewarding career journey in this dynamic field.

Event Summary

The first Students Association event for the Computer Science and Engineering (Artificial Intelligence and Machine Learning) department 'NEURANEST' was inaugurated at Thanam Hall on 30th September 2023 10:30 AM. Dr. Saravanakumar, Senior Software Architect, Bosch Global Software Technologies was the Chief Guest of the Event. He delivered the address on 'GEN AI and Data Analytics'. The session began by emphasizing the growing significance of AI and ML technologies across industries. AI and ML have revolutionized businesses, making data-driven decisions and automation essential for success. The speakers discussed how AI/ML specialists are in high demand globally, driving the need for skilled professionals. The speakers provided an overview of Robert Bosch Technologies, highlighting its legacy as a technology pioneer and its commitment to innovation. Bosch's extensive involvement in AI/ML was showcased through case studies of real-world applications, demonstrating how the company is at the forefront of this technological revolution. The session concluded with an inspiring call to action for the participants. The speakers encouraged students and professionals to participate in hackathons and codathons. These events not only offer a platform to showcase talent but also provide opportunities for networking and skill development. Bosch actively supports and sponsors such events, fostering innovation within the AI/ML community.
