Identity Theft: What It Is, How to Prevent It, Warning Signs and Tips

ID theft is when someone illegally poses as you, usually to get money. Know these warning signs and prevention tips.

Many or all of the products featured here are from our partners who compensate us. This may influence which products we write about and where and how the product appears on a page. However, this does not influence our evaluations. Our opinions are our own. Here is a list of our partners and here's how we make money.

Identity theft is when someone uses your personal data — your name, Social Security number, birthdate, etc. — to impersonate you, typically using that information to steal from you.

It's a growing problem in the U.S., and pandemic relief made it worse as identity thieves targeted relief checks and unemployment benefits.

Theft of benefits in 2020 was up a whopping 2,920% over 2019. Overall, the Federal Trade Commission received 1.4 million complaints of identity theft from consumers in 2020, up 113% from the year before.

Here's what you need to know to reduce chances you'll be a target, spot warning signs and take quick action to minimize damage.

- What is identity theft?
- 7 types of identity theft and warning signs
- 11 ways to prevent identity theft

- 10 ways identity theft happens
- How to report identity theft
- What happens when you report identity theft?
- What is the best identity theft protection service?
