**EXPERT TALK ON NETWORKING AND COLLABORATIVE RESEARCH**

<b>Event No</b>	CS001
<b>Organizing Department</b>	Computer Science and Engineering
<b>Associate Dept.   NSC</b>	Computer Society of India
<b>Date</b>	12/08/2023
<b>Time</b>	09:00 AM to 10:30 AM
<b>Event Type</b>	Expert Talk
<b>Event Level</b>	Dept. Level
<b>Venue</b>	The Legend
<b>Total Participants</b>	15
<b>Faculty - Internal</b>	15

**Related SDG**

**Involved Staffs**

Sl	Name	Role
1	Yuvaraj S	Convenor
2	Primya T	Coordinator

**Outcome**

Participants gain insights into the latest trends, best practices, and advancements in network and collaborative research. Expert can provide valuable information on tools, methodologies, and strategies that can enhance research processes.

**Event Summary**

Networking can lead to potential collaborations, partnerships, and the exchange of ideas beyond the event. Attendees can learn new skills related to networking, collaboration, and research methodologies. Experts might share tips on effective communication, project management, data sharing, and interdisciplinary teamwork. Expert talks can inspire participants to explore new research areas, take on interdisciplinary projects, or think outside the box. Learning from seasoned researchers can motivate attendees to push the boundaries of their own work. Participants can bring up challenges they're facing in their research projects, and experts can offer insights and potential solutions. This can help researchers overcome obstacles and make progress in their work. The exchange of ideas during the talk can lead to innovative approaches and ideas that participants might not have considered before. Cross-pollination of ideas from different disciplines can spark creativity and innovation. Insights from the talk can encourage researchers to seek out collaborators from other fields, leading to more comprehensive and impactful research outcomes. Attending expert talks can contribute to the professional development of participants, enhancing their expertise and credibility within their respective fields. Insights gained from the expert talk can improve the quality and relevance of participants' research, potentially leading to more impactful publications, patents, or real-world applications.
