**Outcome**

The UBA scheme of KPRIET has donated and erected solar street lights in Kollupalayam adopted village under the theme of Technology Implementation- Renewable Energy on October 14, 2023.

**Event Summary**

Geetings of Day !!The UBA scheme of KPR Institute of Engineering and Technology has donated and erected solar street lights in Kollupalayam adopted village under the theme of Technology Implementation- Renewable Energy on October 14, 2023 as it will benefit the villagers in many ways. Solar street lights are a sustainable and renewable source of energy. They do not produce any emissions, and they can help to reduce the village's carbon footprint and solar street lights are cost-effective. They require minimal maintenance, and they can save the villagers money on their electricity bills. Solar street lights will improve the safety and security of the village at night. Overall, the installation of solar street lights in Kollupalayam is a positive development for the village. It is a step towards making the village more sustainable, livable, and safe. In addition to the above benefits, the installation of solar street lights can also have a positive impact on the environment. Solar street lights can help to reduce air pollution, and they can also help to preserve the night sky.
