Outcome

Signed an MoU with Hackup Technology Will get many benefits

Event Summary

After signing a Memorandum of Understanding (MOU) with Hackup Technology, our institution is poised to reap significant benefits in the realm of cybersecurity and cyber forensics. This collaboration marks the beginning of an exciting journey towards enhancing our capabilities in this critical field. First and foremost, our students and faculty members will gain access to cutting-edge training and resources provided by Hackup Technology. This partnership will empower them with the latest knowledge and skills in cyber forensics, equipping them to tackle cyber-related challenges more effectively. Our Cyber Cell department, in collaboration with Hackup Technology, will bolster its capacity to address cyber threats and incidents within our campus and the nearby villages. With their expertise and support, we can ensure a safer digital environment for our community. Furthermore, the MOU enables us to collaborate with the Cyber Crime Branch in Coimbatore, allowing us to contribute to solving real-world cybercrime cases. We will develop solutions based on these cases and integrate them into a robust cybercrime framework. This synergy promises to not only enhance our institution's reputation but also contribute to the broader cybersecurity landscape.
