Outcome

The 'Innovative Idea Submission Competition' provides a valuable platform for individuals and teams to showcase their creativity, problem-solving abilities, and entrepreneurial spirit. By fostering such competitions, we aim to contribute to the advancement of various fields and industries. We encourage enthusiastic participation and look forward to witnessing groundbreaking ideas that can make a positive impact on the world.

Event Summary

The primary goal is to discover and promote innovative solutions to specific problems or challenges. This could range from technological advancements and product development to process improvements and social innovations. Individuals or teams, often consisting of students, professionals, or entrepreneurs, are invited to participate. These competitions are usually open to a diverse range of backgrounds and expertise. Participants are required to submit their ideas in a structured format. This may include a written proposal, a presentation, or a combination of both. The submission typically includes details about the problem addressed, the proposed solution, potential impact, and implementation strategy. Date: November 25th Time: 12:00 PM - 4:15 PM Location: CoE Robotics & Automation, KPRIET Participants: 10 teams from the second year 6 teams from the first year Event Summary: The event started a presentation at 12:00 pm. 16 teams presented their innovative ideas to the judges. We had Dr. Arprit Anil Panwar, Mr. Balaji & Dr. Naveen as the Judge, they gave valuable guidance to each team. The event concluded at 4:15 pm with all group presentations. Key Topics: -Enthusiastic participation by students in both years. -A variety of new ideas were offered. -Valuable information and guidance provided by the judges. Valedictory Ceremony is planned where all participants will get Certificates and Winner & Runner Team will get the Cash Prizes & awards.
