Related SDG

Involved Staffs

SI	Name	Role
1	Premkumar D	Coordinator
2	Jeevitha R	Coordinator

Outcome

Green spaces encourage physical activity and can improve mental health by providing opportunities for relaxation and stress relief.

Event Summary

The purpose of the planting event was to enhance the environmental sustainability and community well-being of our village. By planting trees, shrubs, and flowers, we aimed to create a greener and more beautiful environment while also fostering a sense of community participation and responsibility towards nature. The event commenced with an opening ceremony, featuring speeches from village leaders, environmental experts, and guest speakers. The speakers highlighted the importance of environmental conservation and community involvement in sustainable development. The village planting initiative was a resounding success, thanks to the collective efforts of all participants and volunteers. Volunteers from neighboring areas also joined hands to support the initiative. Beyond the immediate environmental benefits, the event strengthened community bonds, empowered individuals to take action for a greener future, and set a positive example for neighboring communities to follow. As we nurture the planted areas and continue our journey towards sustainability, we remain committed to preserving the beauty and vitality of our village for generations to come.Participants were divided into groups and assigned planting areas across the village. Each group received guidance from experienced volunteers on proper planting techniques and maintenance tips.
