## Outcome

III Year Students have attended the session, Mr. Jay Rocamontes have addressed the students about the scaling enterprise agile. He aims to equip the students with the knowledge, inspiration, and practical tools needed to successfully scale agility within their organizations and drive sustainable business growth.

## Event Summary

Mr. Jay Rocamontes has delivered his session on 'Scaling Enterprise Agile'. He has covered the Seven core competencies in Business Agility with Agile Practices and Agile culture. Students can able to apply the knowledge what they have gained in the session will be helpful for them to apply in Realtime. Agile methodology is a project management approach that prioritizes cross-functional collaboration and continuous improvement. It divides projects into smaller phases and guides teams through cycles of planning, execution, and evaluation. Agile's four main values are: Individuals and interactions over processes and tools, Working software over comprehensive documentation, Customer collaboration over contract negotiation, Responding to change over following a plan. Agile Teams must be build cross functional teams, Self Organizing entities. Responsibilities of Agile Team are Improving Rentlessly, Connecting with the customer, Planning the work, delivering the value. Getting Feedback. Safe Lean Agile Mindset, Agile Mindset and Generative Culture. The iron triangle of Project Management. Integration points and control product development. Stories and Story maps. Jay Rocamontes' leadership and expertise inspire attendees to embrace agility and drive transformative change within their organizations, fostering a culture of continuous improvement and innovation.
