Outcome

A quiz is a quick and informal assessment of student knowledge. Quizzes are often used in North American higher education environments **to briefly test a students' level of comprehension regarding course material, providing teachers with insights into student progress and any existing knowledge gaps**.

Event Summary

This event was conducted by YI-YUVA KPRIET to provide linitless oppurtunities for young intelligent minds. This quiz event was conducted on Independence day 2022 to the students of KPRIET to find the outstanding talents among the students. A quiz is a form of game or mind sport in which players attempt to answer questions correctly on specific topics. Quizzes can be used as a brief assessment to measure growth in knowledge, abilities, or skills. More than 40 students participated in this event and they learnt about various quiz topics and gained huge knowledge. The participants finally came to know about the history of Independence Day and they showed a interest to answering the questions. It is used to test their knowledge and ability to find the answers in short time. Atlast event coordinators showed up all the right answers to the participants to make them more knowledge about Independence day. The Programme promoted the scientific and engineering inquisitiveness in students and to improve healthy competition and to boost morale of students in this much needed hour. Totally 4 rounds were conducted among the participants to find the winner. Different types of questions were asked to the students to shortlist them. This event was filled with energy and enthusiasm. The winners were selected by the spontaneous answers they were given. The students were interested to participate in this kind of events in the future. The winners were awarded with prizes which motivate them to participant in future events.
