Outcome

Making the students to explore in new domain (Power Bi and SQL). Student

Event Summary

Department of computer science and Engineering organised an Alumni series in association with office of Alumni relations. Dr.N.Yuvaraj, Professor and Head - CSE inaugurated the Seminar and given presidential address. Dr.M.Saravanan Associate professor given introduction about the resource person. Ms.T.Dharani software Engineer, HCL Tech Bangalore addressed the student and given her experience in power Bi in her project. Power BI enables the users to toggle connections with a click to apply in-memory queries to a larger dataset. SQL is a pretty useful tool and when leveraged with the expertise of Power BI can help to make the analysis more powerful and insightful. She also explained the expectation of the industry and how the student can prepare for their placement activities. she explained well for the queries asked by the students. Dr.P.N.Senthil Prakash given vote of thanks for this alumni series. Totally 65 students participated and get benefited.
