**Outcome**

The outcome of the program makes the student to enrich the knowledge and skills in the various levels of coding

**Event Summary**

The Hackathon on C programming, organized by the Software Development Club (SDC) on January 21, 2023 as part of the IGNITRON event, was a successful gathering of students who have a passion for coding. The event was held for a duration of 3 hours, providing participants the chance to display their proficiency in the C programming language. The hackathon began with an opening ceremony, where the organizers greeted the chief guests with a warm welcome speech, and provided an overview of the rules and guidelines. Participants were divided into teams, each consisting of 2 members. The teams were given a set of problems to solve, which were designed to test their knowledge and understanding of C programming. Throughout the hackathon, participants were given the freedom to work on their own projects, using the C programming language. They were encouraged to be creative and think outside the box. The event also offered a great opportunity for participants to collaborate with their peers and learn from one another. The teams presented their projects to a panel of judges, which were the chief guests present at the event. The projects were evaluated based on their creativity, functionality, and overall quality. The winning team was announced during the closing ceremony, and prizes were awarded to the top teams. Overall, the Hackathon on C programming was a great success, providing an opportunity for students to showcase their skills and learn from one another. The event was well-organized and provided a fun and engaging environment for participants. The Software Development Club should be commended for their efforts in organizing such a successful event.

The poster features logos for KPR Institute of Engineering and Technology, GGC, IGNTBRON, and Great Place to Work Certified. The main title is 'ODE TO CODE' with a URL <https://bit.ly/IGNTBRON2023>. It specifies the time as 10 AM to 1 PM on 21.01.2023. Rules include 2 members per team and a requirement to provide solutions for given problem statements. A QR code is provided for registration, and coordinators are listed as Mr. T.S.Sai Saran and Ms. T.K.S.Divyashri.
