Outcome

Students were honored and visit to Experience Engineering

Event Summary

The Department of Civil Engineering along with ISR organized an visit to school students of CRR Matriculation Higher Secondary School. We the faculty members of KPRIET met the correspondent of CRR Matriculation school and spoke to them about the detailed explanation of the L&T EduTech Experience Engineering center in our institute and informed them to visit our L&T EduTech museum along with their students and additionally shared information about the Experience Engineering. It is India's first industry-spearheaded experiential learning center dedicated to shape skilled engineers with integrated Civil, Mechanical, and Electrical industry skills. Powered with a unique blend of experiential learning content and tools - VR, AR, Interactive digital technologies, exhibits, material showcases, and activities. We explained about the 21st century skills among the students and faculty members of CRR school. World is transforming everyday. In the rapidly evolving engineering landscape, we have an Increased responsibility to transform the engineering education from traditional curriculum to meet the 21st century skills like Creativity, Critical Thinking, Collaboration and Communication. Through our unique and strategic approach we enable our students to learn beyond and prepare them for life long success. And honored the students who secured top rank in 12 th Half yearly exam along with medals and certificates and motivated students to score good marks in their upcoming exam. The correspondent of CRR matriculation Higher Secondary school shared her experience to us and accepted the invitation to visit our Experience Engineering by this week and appreciated our efforts for doing these kind of activities to enhance the skills of the students.
