Outcome

The purpose of Project Expo is to demonstrate students' unique projects at a higher level while also boosting their self-confidence.

Event Summary

Department of Mechanical Engineering in association with Ignitron organized a National level Project Expo cum competition of students across Engineering colleges. This year it was organized on 16.02. 2022.

The major objective of organizing this exhibition was to provide the platform and unleash the potential of the students by showcasing their innovative projects developed during their course either as Industry Defined Problems or User Defined Problems and providing an opportunity for the students to demonstrate their learning experience. In this event, five projects were exhibited for competition.

The outcome of the Project Expo – Fiesta -2023 is to show students' innovative projects at a higher level and to boost their confidence.
