### Outcome

There are few potential outcomes that could result from a project expo event:

1. Increased awareness and interest in the projects and research being conducted by students
2. Opportunities for networking and collaboration
3. Valuable feedback and insights
4. Recognition and exposure for the students and the college
5. Inspiration for future innovation and research

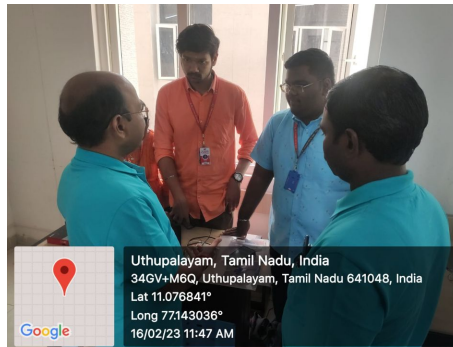

### Event Summary

The project expo event held at the CSE department was a resounding success, with 31 external participants and numerous students and faculty members in attendance. The event was held on 16.02.2023. The project expo featured a range of projects, including software development, data analysis, and artificial intelligence. Students from various academic years participated in the event, showcasing their research and project development skills from various colleges. The participants had the opportunity to interact with students and faculty members, view project demonstrations, and learn about the latest advancements in the field of computer science and engineering. The event was started by Dr.Anusha, Dr.Balamurugan, Dr.Sivakumar as a Jury for the event. The students showcased their projects and explained their work to Juries. After the project demonstrations, the external participants had the opportunity to provide event feedback. The three best projects with the highest marks were awarded prizes for their excellent project development skills.

The first and third prize was awarded to SNS college of technology participants. The second prize was awarded to participants from Sri Eshwar college of engineering. Overall, the project expo event was a huge success, providing an excellent opportunity for students to showcase their research and project development skills and for external participants to learn about the latest advancements in the field of computer science and engineering. The event not only recognized the outstanding projects but also fostered networking opportunities and collaboration among students, faculty members, and industry professionals.
