Outcome

Students came to know about KPRIET Scholarship.

Event Summary

KPRIET conducted Scholarship day on March 13th, 2023. The function started by 9.30 am in Raagam hall. KPRIET Students, who got scholarship from KPRIET were invited to the function along with their parents. Nearly 300 people participated in the function. Two of our Alumni explained the benefits of KPRIET Scholarship.

Mr. Krithik, Department of Electrical and Electronics Engineering, who is currently working in Zoho and Mr. Gokul, Department of Biomedical Engineering, who is currently working in CTS, explained the benefits of KPRIET Scholarship and how they got benefited when they were students. Both of the alumni were greatly excited about such an event conducted by KPRIET in order to tell the benefits of KPRIET Scholarship so that, it will reach a number of students who are in need of scholarship. They said, earning a scholarship is prestigious. Since you get a scholarship on merit, getting one will leave a good impact on your future employers. Some competitive scholarships are so good that you can list them on your resume under accomplishments. Stand out from the rest during job search. Since scholarships have become so essential to a majority of students, you should look for colleges and universities that offer scholarships.

KPRIET provides scholarship every year by conducting Talent Test. Through Talent Test, KPRIET is identifying and providing Scholarship to the students.

There are many scholarships available here, including government scholarships. Many students are studying using that scholarship. It helps in empowering your academic and career goals by removing the financial barrier.
