Team work and building relationships with family of the faculty and staff

Event Summary

Greetings

Staff Club of KPR Institute of Engineering and Technology organized Fortune Seek on 15.04.2023 for kids and spouses at our KPRIET campus at 9.30am which turned out to be a huge success. The event was aimed at children between the grades of KG and grade 12 and it offered a range of exciting activities and games for the kids to enjoy. The event started at 10 am and lasted until 2 pm. Refreshment was provided to all the participants at OAT. As soon as the event started, the children rushed in and were immediately to their desired clue point to hunt the treasure. One of the most popular activities at the event was the mime and activities with balloons. The event also had a snacks given when the children completed the activity on time at every place. Throughout the event, there were also contests and games with prizes. The children were thrilled to participate in the games, and even those who didn't win a prize were still happy to have been part of the fun. Overall, the "Fortune Seek "event was a huge success. The children had a great time, and the parents were pleased with the range of activities on offer. The event was well-organized, and the staff did an excellent job of keeping the kids engaged and entertained. It was clear that a lot of effort had gone into planning the event, and it paid off with a great day of fun for all involved. Food was provided to all participants, parents' faculty members and staff of KPRIET.
