

Session on Process of Innovation Development

Event No	BM004
Organizing Department	Biomedical Engineering
Date	26/02/2022
Event Type	Seminar
Event Level	Dept. Level
Venue	Integrated Circuits Laboratory
Total Participants	32
Faculty - Internal	2
Students - Internal	30

Outcome

To understand the process involved in the Innovation development.

Event Summary

The Department of Biomedical Engineering organized a session on "Process of Innovation Development" on 26.02.2022 to encourage the student mindset in innovation. The session was addressed by Mr.P.Arunkumar, Innovation Ambassador |AP-BME. He has explained the various phases involved in innovation process and also narrated the different method of innovation development. About 30 participants from biomedical engineering has attended and gain knowledge in producing their innovative ideas into a successful product.
