**Outcome**

Awareness on Online Identity Theft, Phishing, Cyber Stalking was given to the students

**Event Summary****Report on seminar on "Online Identity Theft, Phishing, Cyber Stalking"****Resource Person:**

Dr T Sivakumar

Associate Professor, Dept of CSE

KPR Institute of Engineering and Technology, Coimbatore

The session is started at 7.15PM on 5th March 2022. Ms.D.Pooja from II-CSE delivered the welcome address and introduced the resource person to the participants. Further, Dr.T.Sivakumar initiated the webinar with the importance of cyber security due to the growth of Internet and web oriented services.

Dr T Sivakumar discussed the following aspects of as part of the cyber awareness on the topic "Online Identity Theft, Phishing, Cyber Stalking"

Web 2.0 & Web 3.0 - Web 3.0 has the potential to be just as disruptive and to usher in a significant paradigm shift as Web 2.0 did.

Industry 4.0 - Industry 4.0 is revolutionizing the way companies manufacture, improve and distribute their products. Manufacturers are integrating new technologies, including Internet of Things (IoT), cloud computing and analytics, and AI and machine learning into their

production facilities and throughout their operations.

Digital Assets

Identity Theft

How to secure the digital assets?

Phishing - Phishing attacks are the practice of sending fraudulent communications that appear to come from a reputable source.

Cyber Stalking - Cyberstalking refers to the use of the internet and other technologies to harass or stalk another person online, and is potentially a crime in the United States.

Discussion in cyber security issues with respect to identity theft and security the digital identity is happened with the students.

Ms.R.MohanaPriya from II Year CSE concluded the webinar with Vote of Thanks at 8.00PM.
